

| | Question | Response | Comments |
|-------------------------------------|---|---|----------|
| | State | | |
| | What is your first tier test? (MS/MS, LC-MS/MS or fluorometry?) | | |
| | Do you use CLIR to determine if presumptive positive or if 2nd tier test is needed? | | |
| | What is your 2nd tier test, if any? | | |
| | What is your 3rd tier test, if any? | | |
| | Do you report very low GALC activity irrespective of 2nd tier test? | | |
| | Do you provide preliminary report of very low GALC activity while waiting for 2nd tier test result? | | |
| | Number of babies screened while PSY was used as the only 2nd tier test (no molecular testing)? (time frame: month/yr-month/yr) | | |
| | Number of babies that received 2nd tier PSY: | | |
| | Number of babies with PSY 2-10? | | |
| | Number of KD confirmed but not yet treated | | |
| | Number of KD confirmed with HSCT planned/performed | | |
| | Number of considered false positive | | |
| | Number of babies with PSY 5-10? | | |
| | Number of KD confirmed but not yet treated | | |
| | Number of KD confirmed with HSCT planned/performed | | |
| | Number of considered false positive | | |
| | Number of babies with PSY >=10? | | |
| | Number of KD confirmed but not yet treated | | |
| | Number of KD confirmed with HSCT planned/performed | | |
| | Number of considered false positive | | |
| | | Number of babies screened while PSY and GALC sequencing were used as 2nd tier tests? (time frame: month/yr-month/yr) | |
| | Number of babies that received 2nd tier PSY and GALC seq: | | |
| | Number of babies with PSY 2-10 and GALC WT/WT? | | |
| | Number of KD confirmed but not yet treated | | |
| | Number of KD confirmed with HSCT planned/performed | | |
| | Number of considered false positive | | |
| | Number of babies with PSY 2-10 and GALC WT/Path | | |
| | Number of KD confirmed but not yet treated | | |
| | Number of KD confirmed with HSCT planned/performed | | |
| | Number of considered false positive | | |
| | Number of babies with PSY 2-10 and GALC WT/[non-path or non-WT] | | |
| | Number of KD confirmed but not yet treated | | |
| | Number of KD confirmed with HSCT planned/performed | | |
| | Number of considered false positive | | |
| | Number of babies with PSY 2-10 and GALC Path/Path? | | |
| | Number of KD confirmed but not yet treated | | |
| | Number of KD confirmed with HSCT planned/performed | | |
| | Number of considered false positive | | |
| | Number of babies with PSY 2-10 and GALC Path/[non-path or non-WT] | | |
| | Number of KD confirmed but not yet treated | | |
| | Number of KD confirmed with HSCT planned/performed | | |
| | Number of considered false positive | | |
| | Number of babies with PSY 2-10 and GALC [non-Path or non-WT]/[non-path or non-WT] | | |
| | Number of KD confirmed but not yet treated | | |
| | Number of KD confirmed with HSCT planned/performed | | |
| Number of considered false positive | | | |

| | | | |
|--|---|--|--|
| | Number of babies with PSY 5-10 and GALT WT/WT? | | |
| | Number of KD confirmed but not yet treated | | |
| | Number of KD confirmed with HSCT planned/performed | | |
| | Number of considered false positive | | |
| | Number of babies with PSY 5-10 and GALT WT/Path | | |
| | Number of KD confirmed but not yet treated | | |
| | Number of KD confirmed with HSCT planned/performed | | |
| | Number of considered false positive | | |
| | Number of babies with PSY 5-10 and GALT WT/[non-path or non-WT] | | |
| | Number of KD confirmed but not yet treated | | |
| | Number of KD confirmed with HSCT planned/performed | | |
| | Number of considered false positive | | |
| | Number of babies with PSY 5-10 and GALT Path/Path? | | |
| | Number of KD confirmed but not yet treated | | |
| | Number of KD confirmed with HSCT planned/performed | | |
| | Number of considered false positive | | |
| | Number of babies with PSY 5-10 and GALT Path/[non-path or non-WT] | | |
| | Number of KD confirmed but not yet treated | | |
| | Number of KD confirmed with HSCT planned/performed | | |
| | Number of considered false positive | | |
| | Number of babies with PSY 5-10 and GALT [non-Path or non-WT]/[non-path or non-WT] | | |
| | Number of KD confirmed but not yet treated | | |
| | Number of KD confirmed with HSCT planned/performed | | |
| | Number of considered false positive | | |
| | Number of babies with PSY >=10 and GALT WT/WT? | | |
| | Number of KD confirmed but not yet treated | | |
| | Number of KD confirmed with HSCT planned/performed | | |
| | Number of considered false positive | | |
| | Number of babies with PSY >=10 and GALT WT/Path? | | |
| | Number of KD confirmed but not yet treated | | |
| | Number of KD confirmed with HSCT planned/performed | | |
| | Number of considered false positive | | |
| | Number of babies with PSY >=10 and GALT WT/[non-path or non-WT]? | | |
| | Number of KD confirmed but not yet treated | | |
| | Number of KD confirmed with HSCT planned/performed | | |
| | Number of considered false positive | | |
| | Number of babies with PSY >=10 and GALT Path/Path? | | |
| | Number of KD confirmed but not yet treated | | |
| | Number of KD confirmed with HSCT planned/performed | | |
| | Number of considered false positive | | |
| | Number of babies with PSY >10 and GALT Path/[non-path or non-WT]? | | |
| | Number of KD confirmed but not yet treated | | |
| | Number of KD confirmed with HSCT planned/performed | | |
| | Number of considered false positive | | |
| | Number of babies with PSY >10 and GALT [non-Path or non-WT]/[non-path or non-WT]? | | |
| | Number of KD confirmed but not yet treated | | |
| | Number of KD confirmed with HSCT planned/performed | | |
| | Number of considered false positive | | |
