Recent Advances in Nutrition, Management and Health of Feedlot Cattle and Lambs

Guest Editors:

Dr. Alejandro Plascencia
Facultad de Medicina Veterinaria y Zootecnia, Universidad Autónoma de Sinaloa, Culiacan 80260, Mexico

Prof. Dr. Richard Avery Zinn
Department of Animal Science, University of California, Davis, CA 95616, USA

Deadline for manuscript submissions:
15 August 2024

Message from the Guest Editors

Dear Colleagues,

Feedlot growth performance is a complex function of nutrition (including diet acceptability and feeding management), environmental conditions, animal management, and animal health and welfare. In this Special Issue, we welcome research articles as well as review papers focusing on the following areas: (1) diet formulation, feed processing, and feeding management practices for enhancement of growth performance and health; (2) mitigation of adverse environmental factors (including animal management systems); (3) management practices that promote animal health and wellbeing; and (4) mitigation of ruminal methane production.

Message from the Editor-in-Chief

Animals is an on-line open access journal that was first published in 2011. *Animals* adheres to rigorous peerreview and editorial processes and publishes only high quality manuscripts that address important issues in the many varied disciplines that involve animals, with a focus on animal science, animal welfare and animal ethics. *Animals* is covered in the Science Citation Index Expanded (SCIE) in Web of Science, with the latest Impact Factor: 3.0 (2022, ranks 12 /62 (Q1) in 'Agriculture, Dairy & Animal Science'; 13/143 (Q1) in 'Veterinary Sciences'), 5-Year Impact Factor: 3.2.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.
High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, AGRIS, Animal Science Database, CAB Abstracts, and other databases.
Journal Rank: JCR - Q1 (*Veterinary Sciences*) / CiteScore - Q1 (*General Veterinary*)
