### Message from the Guest Editors

Dear Colleagues,

We are pleased to invite you to contribute an article to this Special Issue, titled “Recent Advances in Equine Surgery and Sports Medicine”. We aim to create an article collection to share innovative perspectives from specialists across transdisciplinary research backgrounds (e.g., surgery, sports medicine, imaging, podiatry) to begin to address clinical questions in the fields of equine surgery and sports medicine.

In this Special Issue, we will welcome original research articles, communications, reviews, commentaries, registered reports, and case reports which present or discuss topics related to equine surgery and sports medicine. Research areas may include, but are not limited to, equine orthopedics, soft tissue procedures, lameness, diagnostic analgesia, imaging, rehabilitation, and podiatry.
